ORDINANCE NO. 1990-M-46

AN ORDINANCE AMENDING TITLE 13, "PUBLIC UTILITIES"
CHAPTER 13.08, "ELECTRICITY"

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ST. CHARLES, KANE AND DU PAGE COUNTIES, ILLINOIS, as follows:

1. That Title 13, "Public Utilities", Chapter 13.08, "Electricity", Sections 13.08.230, 13.08.260, and 13.08.275 of the St. Charles Municipal Code, be and are hereby amended by deleting the same and substituting the following therefore:

13.08.230 Rate 1 - Residential - Rates, charges and service requirements.

A. Availability. Electrical energy is available under this rate for residential purposes.

B. Charges for this rate shall be as follows:

1. Monthly customer charge. The net monthly customer charge shall be three dollars and sixty-eight cents.

2. Energy Charge. The energy charge shall be as follows:

		Summer Months Kilowatthours
$.100	per kilowatthour for the first	1000
.110	per kilowatthour all over	1000

		Non-Summer Months Kilowatthours
$.068	per kilowatthour for the first	500
$.046	per kilowatthour for all over	500

For the purposes hereof the "summer months" shall be the Customer's first monthly billing period with an ending meter reading date on or after June 15 and the three succeeding monthly billing periods.

3. Three-Phase Service. Where three-phase service is provided, there shall be an additional monthly charge of twenty nine dollars.

4. Minimum Charge. The minimum monthly charge shall be the net monthly customer charge.

5. Gross Charge. The gross charge shall be ten percent more than the net charge.

C. Normal Service Facilities. A normal installation shall consist of single-phase service. Three-phase service is available under this rate in consideration of an additional monthly service charge as stated in Subdivision 3 of Subsection B of this Section. In the event a three-phase supply is not available from the City's distribution system immediately adjacent to the Customer's property, the necessary primary and secondary extensions will be furnished at the expense of the customer.

D. General Requirements.

1. The customer's wiring shall be so arranged that all service hereunder may be supplied through a single metering installation.

2. Service hereunder will be furnished only to a single occupancy, and where service to an apartment building is desired hereunder, each apartment shall be treated as a

separate customer and served through a separate metering installation; provided, however, that in apartment buildings containing six or fewer apartments, hall lights and building operating equipment, including no

motors larger than one horsepower and not more than six horsepower for all motors, may be connected to the metering installations for one of the apartments, or as a separate metering installation at the discretion of the building operator. The meters shall be grouped in a single location.

3. The terms and conditions stated in Sections 13.08.040 through 13.08.210 apply to this rate and service hereunder shall be subject thereto.

13.08.260 Rate 5 - General Service - Rates, charges and service requirements.

A. Availability. The General Service rate is available to any customer using the City's electric service for all requirements other than residential service. This rate also applies to federal, state, and local government agencies, public and parochial schools, libraries and churches.

B. Charges for this rate shall be as follows:

1. Monthly Customer Charge. The net monthly customer charge shall be thirty dollars and forty-five cents with a demand meter and nine dollars and ninety-eight cents for a customer without a demand meter.

2. Demand Charge. The demand charge shall be as follows:

NET	
$6.77 per kilowatt	Summer Months
$6.77 per kilowatt	Non-Summer Months

For the purposes hereof the "summer months" shall be the Customer's first monthly billing period with an ending meter reading date on or after June 15 and the three succeeding monthly billing periods.

For customers without demand meters, there shall be no demand charge as such, but, in lieu thereof, such customers shall pay $.046 per kilowatthour in addition to the energy charge set forth below.

3. Energy Charge. The energy charge shall be as follows:

   $.046 per kilowatthour for all kilowatthours

   except that the charge for such kilowatthours in excess of the product of four hundred fifty times the monthly kilowatt demand shall be reduced by $.010 per kilowatthour.

4. Minimum Charge. The minimum monthly charge shall be the net monthly customer charge.

5. Gross Charge. The gross charge shall be ten percent more than the net charge.

C. Normal Service Facilities:

1. The City shall furnish as a normal installation facilities to supply and meter at a single point of delivery a normal load equal to the maximum thirty-minute demand of the customer, at a power factor of eighty-five percent lagging. Where an additional point of delivery is required other than for convenience of the customer, the facilities incident thereto shall be furnished by the City as a part of a normal installation.

   Each normal installation shall include, where necessary, facilities for one standard transformation. The type and characteristics of service facilities comprising a normal installation, including meters, shall be determined by the City's standard practice.

2. Where for any reason facilities in excess of a normal installation are provided by the City, such facilities shall be furnished at the expense of the customer.

D. General Requirements.

1. The customer's wiring shall be so arranged that all service hereunder may be supplied through a single metering installation, except in multi-occupancy business premises where each business shall be serviced as an individual customer. Nothing in this rate shall be deemed to preclude a residential occupancy on the customer's property from being served as a separate customer on a residential rate.

2. Installation and Removal of Demand Meters. The City shall provide a demand meter for a customer when his monthly kilowatthour use exceeds two thousand kilowatthours in each of two successive billing periods or if his maximum demand or monthly kilowatthour use is estimated as in excess of ten kilowatts or two thousand

kilowatthours, respectively. The City shall remove the demand meter of any customer whose use has not exceeded two thousand kilowatthours in any month of the preceding sixteen-month period.

Any customer for whom a demand meter is not provided by the City may at his request be provided therewith. Cost of the installation of the demand meter shall be billed to the customer requesting the demand meter.

3. Measurement of Demand and Kilowatthours Supplied. Where two or more metering installations are provided on the customer's premises, the demand in any thirty-minute period shall be determined by adding together the separate demands at each metering installation during such thirty-minute period except that:

   In case the demand at any metering installation is registered by an indicating or cumulative demand meter, the demand at such installation in each thirty-minute period of any month shall be assumed to be the same as the highest demand in any thirty-minute period of such month.

4. The terms and conditions stated in Section 13.08.040 through 13.08.210 apply to this rate and service hereunder shall be subject thereto.

13.08.275 Rate 7 - Large General Service - Rates, Charges and Service Requirements.

A. Availability.

1. This rate is available to any customer using the City's electric system for all requirements other than residential service where such customer has a monthly peak kilowatt demand over 750 Kilowatts during the last billing period. Any customer on this rate whose monthly peak demand has not exceeded 750 kilowatts in the preceding twelve billing periods will be transferred to the rate described in Section 13.08.260."

B. Charges for this rate shall be as follows:

1. Monthly Customer Charge. The monthly customer charge shall be one hundred and five dollars for a customer with a demand meter.

2. Demand Charge. The demand charge shall be as follows:

$7.30 per kilowatt	Summer Months
$7.30 per kilowatt	Non-Summer Months

For the purposes hereof the "summer months" shall be the customer's first monthly billing period with an ending meter reading date on or after June 15 and the three succeeding monthly billing periods.

3. Energy Charge. The energy charge shall be as follows:

   $.046 per kilowatthour for all kilowatthours

   except that the charge for such kilowatthours in excess of the product of four hundred fifty times the monthly kilowatt demand shall be reduced by $.010 per kilowatthour.

4. Measurement of Demand and Kilowatthours Supplied. Where two or more metering installations are provided on the customer's premises, the demand in any thirty-minute period shall be determined by adding together the separate demands at each metering installation during such thirty-minute period except that:

   In case the demand at any metering installation is registered by an indicating or cumulative demand meter, the demand at such installation in each thirty-minute period of any month shall be assumed to be the same as the highest demand in any thirty-minute period of such month.

5. Minimum Charge. The minimum monthly charge shall be the net monthly customer charge.

6. Gross Charge. The gross charge shall be ten percent more than the net charge.

7. The terms and conditions stated in Sections 13.08.040 through 13.08.210 apply to this rate and service hereunder shall be subject thereto.

3. That after the adoption and approval hereof, this Ordinance shall (a) be printed or published in book or pamphlet form, published by the authority of the Council, or (b) within thirty (30) days after the adoption and approval hereof, be published in a newspaper published in and with a general circulation within the City of St. Charles. However the ordinance shall not be effective before June 15, 1990.

PRESENTED to the City Council of the City of St. Charles, Illinois, this 21st day of May, 1990.

PASSED by the City Council of the City of St. Charles, Illinois, this 21st day of May, 1990.

APPROVED by the Mayor of the City of St. Charles, Illinois, this 21st day of May, 1990.

STATE OF ILLINOIS)
) SS.
COUNTIES OF KANE AND DU PAGE)

CERTIFICATE

I, Jean M. Connors, certify that I am the duly elected and acting municipal clerk of the City of St. Charles, Kane and DuPage Counties, Illinois.

I further certify that on May 21, 1990 the Corporate Authorities of such municipality passed and approved Ordinance No. 1990-M-46, entitled AN ORDINANCE AMENDING TITLE 13, "PUBLIC UTILITIES," CHAPTER 13.08, "ELECTRICITY"

which provided by its terms that it should be published in pamphlet form.

The pamphlet form of Ordinance No. 1990-M-46, including the Ordinance and a cover sheet thereof was prepared, and a copy of such Ordinance was posted in the municipal building, commencing on May 25, 1990, and continuing for at least ten days thereafter. Copies of such Ordinance were also available for public inspection upon request in the office of the municipal clerk.

DATED at St. Charles, Illinois, this 22nd day of May, 1990.

Jean M. Connors
Municipal Clerk
