BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ST. CHARLES, KANE AND DUPAGE COUNTIES, ILLINOIS, as follows:

Section 1. That Title 13 “Public Utilities”, Section 13.12.830 “Charges for Residential Users”, Subsection A, Paragraph 1; Section 13.12.840 “User Charges for Metered Water Consumption and Nonresidential Use”, Subsection A, Paragraph 1 and 2; and Section 13.12.810 “Surcharge to Industrial Users for Discharge of Compatible Pollutants”, Subsection B of the St. Charles Municipal Code, is hereby deleted in its entirety and in lieu thereof the following language shall be substituted:

**“13.12.830 Charges for Residential Users**

A. The residential sewer user charge shall be as follows:

1. The following rate shall be charged for sewer service to all residential users of City sewers based upon metered water consumption: twelve dollars and fifty cents (\$12.50) demand charge per month plus four dollars and eighteen cents (\$4.18) per one thousand gallons of water used with a maximum sewer charge not to exceed 130% of a residential user’s winter quarter water usage average. The residential user’s “winter quarter” water usage shall be defined as the water that is billed to the user in the months of January, February, and March. When the 130% calculation produces a fractional result, the customer maximum will be raised to the next whole number.”
  
5. Charge for Use Outside of City Limits: Any customer receiving sewer service at a location outside the corporate limits of the City of St Charles shall pay an additional charge of 20% of all user charges imposed for sewer service unless the customer has a sewer service agreement with the City that was in existence prior to May 6, 2013 that provides for a different additional charge.”

**“13.12.840 User Charges for Metered Water Consumption and Nonresidential Use**

A. The non-residential sewer user charge shall be as follows:

1. The following rate shall be charged for sewer service to all non-residential users of City sewers based upon metered water consumption: twelve dollars and fifty cents (\$12.50) demand charge per month plus four dollars and eighteen cents (\$4.18) per one thousand gallons of water used.
2. The following rate shall be charged for sewer service to all non-residential users of City sewers where water consumption does not reflect the actual quantity of wastewater tributary to the wastewater treatment works: twelve dollars and fifty cents (\$12.50) demand charge per month plus four dollars and eighteen cents (\$4.18) per one thousand gallons of wastewater actually discharged into the sewer system.”

5. Charge for Use Outside of City Limits: Any customer receiving sewer service at a location outside the corporate limits of the City of St Charles shall pay an additional charge of 20% of all user charges imposed for sewer service unless the customer has a sewer service agreement with the City that was in existence prior to May 6, 2013 that provides for a different additional charge.”

**“13.12.810 Surcharge of Industrial Users for Discharge of Compatible Pollutants**

B. Users permitted to discharge Compatible Pollutants in excess of the stated limits, either singly or collectively, shall pay a surcharge according to the following schedule:

\$0.38 for every pound of BOD discharged above the stated limits

\$0.29 for every pound of TSS discharged above the stated limits

\$0.13 for every pound of FOG discharged above the stated limits

The following formula shall be used for calculating the pounds of excess in the User's discharge:
